

KEGG-GO-FGSEA

label

site-specific DNA-methyltransferase (adenine-specific) activity

RNA helicase activity

protein tyrosine kinase activity

propionyl-CoA carboxylase activity

phosphorelay response regulator activity

NADH dehydrogenase (ubiquinone) activity

N-acyl homoserine lactone synthase activity

DNA helicase activity

beta-lactamase activity

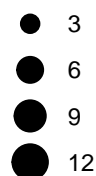

acetyl-CoA carboxylase activity

3'-5' DNA helicase activity

Isolate

Origin
